Are you living with dementia? Or caring for someone who is?

A study being conducted at the University of Queensland is investigating communication changes and experiences with technology.

Participation would involve one audiotaped interview with you and a family member about your experiences and needs related to communication changes, and use of technology.

If you are interested in participating or have any questions about the study – Please contact Dr Jacki Liddle at the Florence Project at the University of Queensland on:
Email: j.liddle@uq.edu.au
Or phone Rebecca on: (07) 3365 3988
