This is the recommended study plan for Master Interaction Design students who commence their program in Semester 2 (July). Variations to this study plan are possible, but should be discussed with an Academic Advisor prior to enrolling in courses.

**Part A: Compulsory Courses**

**#18 units total**

You may have received exemption for listed courses based on previous study. If so, you would replace the listed course with another equivalent weighted course.

**Part B: Research**

#6 - #8 units

**Practitioner Option**

The practitioner option consists of 2 team-based capstone projects with industry partners, plus one research methods course.

**Research Option**

The research option involves individual year-long research thesis with an academic supervisor. If you are considering a research career, this is your best choice.

**Part C: Interaction Design Electives**

#4 - #6 units

**Part D: General Electives**

#0 - #4 units

**Practitioner Option**

- DECO7862 Masters Thesis (#6 year long) Semester 2 Start

**Research Option**

- DECO7850 Physical Computing and Interaction Design Studio (#4 units) (1)

**Part D : General Electives**

#0 - #4 units

COMU7014 (Semester 2)
COMU7304 (Sem 2)
CSSE7023 (Sem 1, 2)
CSSE7201 (Sem 1, 2)
CSSE7231 (Sem 2)
CSSE7306 (Sem 1, 2 #4)
HLTH7001 (Sem 1, 2)
HLTH7002 (Sem 1, 2)
HLTH7003 (Sem 1, 2)
HLTH7005 (Sem 1, 2)
INFS7202 (Sem 1)
INFS7900 (Sem 1, 2)
INFS7903 (Sem 2)
MATH7861 (Sem 1, 2)
MGTS7601 (Sem 1, 2)
PHIL7111 (Sem 2)
TIMS7301 (Sem 1, 2)
TIMS7328 (Sem 2)
WRIT6001 (Sem 1, 2)

OR other courses approved by the Executive Dean

Special Project courses (DECO7000, DECO7001, DECO7003) are occasionally offered during the Summer Semester.
