How to Register
Registration is now open; Teachers can register your school, students participating and the projects on our website before the 31st of May 2013. The competitions are held during August in the respective states, please refer to the website for more details on the dates and venues.

For more information visit our website http://youngictexplorers.net.au/cms/ or contact us at: travis.joy@sap.com 02 9935 4451

Who we are
Young ICT explorer is a non-profit competition for School students in Years 4 – 12 in New South Wales Queensland and now Victoria for 2013. It is an opportunity for students to produce and display their best Information and Communication Technology related projects, with the chance to win great prizes and acclaim from their peers as well as academic and industry leaders in the field. We aim to inspire and encourage school students to get more involved in developing ICT projects.

Why your School should get involved?
• It's free to enter & there is no cost to your school.
• Young ICT Explorers compliments the school curriculum.
• It inspires creativity and collaboration, the sharing of ideas and knowledge.
• Great Prizes can be won. Students in the winning project teams receive prizes for 1st 2nd and 3rd place, plus additional awards on the day.
• The 1st place project in each division also wins their school a prize (2012 was an iPad!)
• Great networking opportunity to meet other dynamic ICT teachers and educators, students can mingle with similarly inspired young minds.

The Competition
The scope of subjects in the competition is broad; this encourages greater participation and creativity through all different forms of technology. We welcome all kinds of projects providing they have a clear link to ICT. Students can compete individually or in project teams of up to four students. Students are competing in 4 year divisions:
